Not Denied that Spain Has Repiled.
Washiveton, March 18 For a few hours to-day matters connected with the Spanish incident were in a most ambiguous state. Early this morning one of the confidential officials of the State department gave out what was characterized an "an authoritative denial of the partment gave out what was characterized an "an authoritative denial of the made an answer to Mr. Gresham s. domaid for an apology in connection with the alleged indignity offered to the Alliana. Just before one o'clock, however, Secretary Gresham told a United Press reporter that he would mither affirm nor deny the story that Spain had replied and he went on to say that he bad made no statement that would indicate that an answer had hene received. These remarks by Mr. Gresham place the first denial in a new light and leave the anater in a state of uncertainty so far as the public is concerned. It was admitted that the department had heard from Minister Laylor since he was listructed to present the minister of foreign adains at Madrid, but it was stated that he merely motified Mr. Cresham of the presentation and said the Spanish government to the minister of foreign adains at Madrid, but it was stated that he merely motified Mr. Cresham of the presentation and said the Spanish government to the received to present the first denial the creation and said the Spanish government to the presentation and said the Allianca case under his arm.

Monday was Inauguration Day Brewer and Mayor-elect Nickerson and the newly elected Aldermen were inecremonics
The inaugural exercises occurred at City Hall and the programme followed was of the usual nature At 10 A. M

Mayor Icht and the old Council met in the Aldermen's room and, after the reading and approving of the records of the previous meeting, thourned suc dic. Then all proceeded to the hall above and I do not know but that I might 'say more numerous than all the rest.

It seems as though all fancied, themsolves to be capable of being better threet Commissioners than the one in power, whoever he may be It is in this department too, where we hear wards offencest spoken of, and here the ward timits are made painfully promisent.

These things are not as they should be, we should sore give due respect to the head of any department, remembering that perhaps he has decided what is best, after learning more of the faces bearing upon the specifical than no have heard of nor should ward houndaries determint the amount to be expended at any point. where Mayor elect Nickerson and the Aldermen-elect were waiting, and the ixercises continued in the presence of a good-sized audo nce of citizens, includ-

It is a deplerable fact that so many of our schools, and the more than une-half atoud school, and that a very small percentage of lices who do attend our common schools, avail themserses the privilege of our high school.

This is not as it should be, and I wisk it were possible for its to remost this cyling of the constant to attend school, then we would indeed be public benefactors, insight of "necessary cylis," as some have chosen to decominate thy councils. I am not, nor have I been for years, in a position to ritides our schools, for my basiness has not brought me in contact with them in the least degree.

But this I lie know, that some of the existing easterns in the school department, are very soverely criticised by certain of our citizens.

It will be your duty to investigate thoroughly, and if these criticism are found to be just, cause the wrongs to be righted, but if they are found to be light meshed and customs, give to them mesheds and customs, give to them mesheds and customs, give to them your hearty independent.

The off returning and extremity weating question of street lines has been at a start in districting the transporting of the two last cry amals, and possibly may come in for a fair share of our internal temper. There are two cases of alleged highway on conclinate in the court now but I am persuaded that these can be settled in amount radiction to the expense of a law suit in first become have to the expense of a law suit in first become factly without belonging in hefore the caurter all.

The principal trouble seems to have arisen in all raises on account of the custing remployed not surveylng the same cinese in different thans.
